

INFOSTREAM SPECIALS

Fixed prices. No matter how long it takes...

TEST RESTORE

We will do a basic test of your backup application (both if you have two) by restoring a file or folder. Recommended every 6 months.

90-

DISASTER RECOVERY TEST

We simulate an office disaster and take your backup offsite, restore it to a different server and report on the findings. It's major, it's critical, but we recommend doing it once a year.

850-

NETWORK AUDIT

An detailed 84-Point inspection with a written report of your network and server.

170-

WORRY-FREE NETWORK CARE — FULL

Complete 24/7 monitoring with reporting and management of your server. Includes patching, many fixes, remote support, select free upgrades and a ton of extras.

300-/mo.

WORRY-FREE NETWORK CARE — LITE

Similar to WFNC Full. 24/7 monitoring, reporting, patching and basic fixes of the server... even in the middle of the night.

140-/mo.
